No Matter What Happens in Life, Be Good to People. Being Good to People is a Wonderful Legacy to Leave Behind – TAYLOR SWIFT
This Undergraduate Thesis I dedicate to my beloved parents, my sister Alya, and my brothers Desmonth and Arief
ACKNOWLEDGEMENT

Bismillahirrahmanirrahim

In the name of Allah, the most Merciful, the most Gracious. All praise is due to Allah; we praise Him, seek His help, and ask for His forgiveness. I am thankful to Allah, who supplied me with the courage, the guidance, and the love to complete this thesis. Also, Peace and salutation always be to the Prophet Muhammad peace be upon him altogether with his accompanies.

This undergraduate thesis entitled “The Factors Influencing Economic Growth in Indonesia Period 1981-2014, Error Correction Model Approach” has made as partial fulfillment for the requirement to achieve the bachelor degree of economics (Sarjana Ekonomi). So that, I would like to thank all the people who contributed in some way in this thesis. In particularly they are:

1. A special feeling of gratitude to my beloved parents; Ibu and Ayah. Thank you so much for endless love, prayers and encouragement, trust, and all the things you have done to me since I was a little girl until I can finish my undergraduate studies.
2. I also thanks to my beloved brothers and sister: Desmonth, Arief, and Alya for their support, understanding and good wishes whenever I needed.
3. I dedicated this work and give special thanks to my best friend Salma, for the support of my research, for her flawless grammatical editing of my thesis, tolerating my crazy habits, for being by my side in any situations. Thank you for everything ma, and no words can describe our friendship.
4. I should not forget to acknowledge to all my best friends that are far away from me; Tika, Putri, and Trisna for the trust, love, and support long this way.
5. Sincere thanks to my childhood friend, Mbak Lia who also still give me support until now.
6. I would like to express my sincere gratitude to Dr. Masyhudi Muqorobin (Alm) for being a very good lecture as well as parent in this department. Thank you for all the lesson you have taught to me in this university. Al-Fatihah…
7. My thanks must go also to my IPIEF fellas batch 2013 for all the fun we had in the last 3 years together at class.
8. I would like to thank to my supervisors, Dr. Imamudin Yuliadi, SE.,M.Si and Dyah Titis Kusuma Wardani, SE., MIDEc for the continuous support of my undergraduate thesis, for the patience, motivation, enthusiasm, immense
knowledge, and the guidance helping me in all the time of my thesis and writing it.

9. The deepest thanks to all my colleagues, friends, and to some people that I cannot mention their names one by one who took part in making this thesis real.

10. I would like to express my wholehearted thanks to all my lecturers in IPIEF department who guide me from the beginning of university days until I can graduate from this university.

11. Last but not least, I’d like to congratulate myself for the sleepless night, the ups and downs mood, eating too much, uncontrollably tears and all the efforts that I’ve done while making this thesis real in the end.

D. Operational Data of Variables ............................................... 45
E. Analysis Method ................................................................... 46
   1. Classical Assumption Test.................................................. 47
      a. Autocorrelation ............................................................. 48
      b. Normality ........................................................................ 49
      c. Heteroscedasticity .......................................................... 49
      d. Multicollinearity ............................................................. 49
   2. Dynamic Test ...................................................................... 50
      a. Stationary Test .............................................................. 50
      b. Integration Degree Test.................................................. 52
      c. Co-integration Test ........................................................ 52
      d. Error Correction Model .................................................. 53

CHAPTER IV RESULT & ANALYSIS ............................................. 56
A. Research Variable Overview.................................................. 56
   1. Indonesian Gross Domestic Product Overview .................... 56
   2. Foreign Direct Investment (FDI) Overview in Indonesia ........ 58
   3. Indonesian Export Overview .............................................. 59
   4. Indonesia Infrastructure Overview ..................................... 61
   5. Indonesian Inflation Overview .......................................... 62
B. Classical Assumption Test....................................................... 63
   1. Autocorrelation Test .......................................................... 63
   2. Normality Test ................................................................. 64
   3. Heteroskedasticity Test ...................................................... 64
   4. Multicollinearity ............................................................... 65
C. Dynamic Assumption Test....................................................... 67
   1. Stationary Test ................................................................. 67
   2. Integration Degree Test ..................................................... 69
3. Co-integration Test................................................................. 70
4. Error Correction Model Test................................................. 72
D. The Result Analysis ................................................................ 75
   1. The Influence of Foreign Direct Investment (FDI) on
      Economic Growth (GDP)...................................................... 75
   2. The Influence of Export on Economic Growth (GDP)............ 78
   3. The Influence of Infrastructure (Road Length) on Economic
      Growth (GDP).................................................................... 80
   4. The Influence of Inflation Rate on Economic Growth (GDP) 83

CHAPTER V CONCLUSION & SUGGESTION....................................... 86
   A. Conclusion ........................................................................... 86
   B. Suggestion............................................................................ 87
