The 4th International Workshop on MULTIMODAL SEDIMENT DISASTER

"Disaster Mitigation through Partnership-Based Knowledge Sharing"

September 8–9, 2013

Civil and Environmental Engineering Department, Faculty of Engineering, Universitas Gadjah Mada, Indonesia
The 4th International Workshop on
MULTIMODAL SEDIMENT DISASTER
"Disaster Mitigation through Partnership-Based Knowledge Sharing"

Editors
Djoko Legono
Teuku Faisal Fathani
Rachmad Jayadi
Jazaul Ikhsan
Puji Harsanto
Muhammad Sulaiman

Organized by
Civil and Environmental Engineering Department, Faculty of Engineering, Universitas Gadjah Mada, Indonesia

Co-organized by
Research Center for Fluvial and Coastal Disaster, Disaster Prevention Research Institute, Kyoto University, Japan
Graduate School of Life and Environmental Sciences, University of Tsukuba, Japan
Disaster Prevention Research Center, National Cheng Kung University, Taiwan

In Cooperation with
MSD-Network Indonesia, MSD-Network Japan, MSD-Network Taiwan

The texts of the papers in this volume were set individually by the authors or under their supervision. Only minor corrections to the text may have been carried out by the publisher. By submitting the paper in the 4th International Workshop on Multimodal Sediment Disaster (4th-IWMSD)-Disaster Mitigation Through Partnership-Based Knowledge Sharing, the authors agree that they are fully responsible to obtain all the written permission to reproduce figures, tables and text from copyrighted material. The authors are also fully responsible to give sufficient credit included in the figures, legends or tables. The organizer of the workshop, reviewers of the papers, editors and the publisher of the proceedings are not responsible for any copyright infringements and the damage they may cause.
# LIST OF PAPERS

## PREFACE

### LIST OF PAPERS

1. Predicting the Bed Material Load of Non-uniform Sediment using Selected Transport Formulas ............................................................. 1  
   Wan Hanna Melini WAN MOHTAR, JUNAIDI and Muhammad MUKHLISIN

2. Morphological Changes of Riverbed Induced by Channel’s Cross Section and Discharge Variation ................................................................. 7  
   Endro P. WAHONO, Djoko LEGONO, ISTIARTO, Bambang YULISTIYANTO and Gerrit J. KLAASSEN

3. A Practical Idea for Disaster Prevention in the Areas around Active Volcanoes such as Mt. Merapi, Yogyakarta, Indonesia - A Preliminary Research ............................................. 13  
   Masayuki WATANABE

4. Hydrological Characteristic and Simulation of the Jakarta 2013 Flood, Indonesia .......... 19  
   Ratih Indri HAPSARI, Satoru OISHI, Sri WAHYUNI, Dian SISINGGIH and Reni SULISTYOWATI

5. Debris Force on Rectangular Column due to Tsunami ............................................. 25  
   Maulina INDRIYANI, Radianta TRIATMADJA, KUSWANDI

6. Simulation of Sediment Runoff Following Landslides .................................................. 31  
   Masaharu FUJITA, Chen-Yu CHEN, Daizo TSUTSUMI and Kazuki YAMANOI

7. Slope Management Survey using SMART Method at Precint 20 Putrajaya Malaysia .... 37  
   Muhammad MUKHLISIN, Nur Syahira ZAINAL and Wan Hanna Melini Wan MOKHTAR

8. The Investigation of Sediment Accumulation and Its Distribution over Sentani Lake, Jayapura ................................................................. 45  
   Yusuf BUNGKANG and SOEMARNO

9. Study on Surge Triggered by Debris flow Plunging into River .................................. 51  
   Hideaki MIZUNO and Takaaki ANKAI

10. Prediction of Lahar Triggered by Snowmelt using Numerical Simulations Involving Snowmelt and Drainage Processes ......................................... 57  
    Shusuke MIYATA, Daizo TSUTSUMI, Keiki MURASHIGE and Masaharu FUJITA

11. Lift up Force on Concrete Blocks due to Tsunami ..................................................... 65  
    Nurul AZIZAH, Radianta TRIATMADJA, KUSWANDI

12. EFDC Three Dimensional Model Assumption for Sediment Deposition in Wonogiri Reservoir ................................................................. 71  
    Dyah Ari WULANDARI, Djoko LEGONO and Suseno DARSONO

13. Community-based Approach on Flood Disaster Risk Reduction ................................. 77  
    Agus SUHARYANTO

14. Time-prediction Method of Upset of Landslides based on the Stress-dilatancy Relation for Early Warning against Shallow Landslides ................................. 83  
    Katsuo SASAHARA
15. Community Based Disaster Risk Reduction: Jember Debris Flow Experiences .......... 91
   M. Farid MA’RUF and Evita S. HANI

16. Community Awareness and Attitudes to Urban Floods: Findings from Questionnaire
    Survey of Flooding and Non-Flooding Areas in East Java, Indonesia .................... 97
    Dian SISINGGIH, Ichiko INAGAKI, Sri WAHYUNI and Ratih Indri HAPSARI

17. Influence of the Correction Factors in Simulating Debris Flows ......................... 103
    Yih-Chin TAI and Chia-Chi SHEN

18. Bridges Condition in the Rivers of Boyong-Code, Kuning and Gendol in the Post 2010
    Merapi Eruption .................................................. 109
    Iman SATYARNO, Andreas TRIWIYONO, Ali AKBAR, Mega A. WIDIASTUTI and Ulil M.
    MUSAKKIR

19. Influence of Past Landslides and Resulting Sedimentation in a Sediment Disaster at
    Hsiao Lin Village, Taiwan, during Typhoon Morakot, 2009 .................................. 117
    Norifumi Hotta, Tomoharu KUBO, Fumitoshi IMAIZUMI, Kuniaki MIYAMOTO, Shin-Ping LEE,
    Yuan-Jung TSAI and Chjeng-Lun SHIEH

20. Progress on Numerical Model Development of 1D Debris Flow using Lagrangian
    Galerkin Method .................................................. 125
    Adam Pamudji RAHARDJO and Beni Zakaria AR RIDLO

21. Effect of Debris Flows Post the 2010 Eruption of Mount Merapi on Environment and
    Socio-Economic Condition In Progo River and Its Tributaries .............................. 133
    Jazaul IKHSAN, Puji HARSANTO and Muhammad SULAIMAN

22. Experimental Study of Pore Water Pressure in Multi-layer Soil Structure ............. 141
    Fumitoshi IMAIZUMI, Kuniaki MIYAMOTO and Yuta MATSUMURA

23. Debris Flow and Flash Flood at Putih River after the 2010 Eruption of Mt. Merapi, 
    Indonesia ......................................................... 147
    Yutaka GONDA, Djoko LEGONO, Bambang SUKATJA and Untung Budi SANTOSA

    Merapi ............................................................... 153
    Puji HARSANTO, Jazaul IKHSAN and Hiroshi TAKEBAYASHI

25. Tools of Prediction of Lahar Occurrence after Volcanic Eruption .......................... 161
    Kouji MORITA, Nagazumi TAKEZAWA, Tadanori ISHIZUKA, Takao YAMAKOSHI, Hiroshi KISA,
    Toshiki YANAGIMACHI and Yukinori NOWA
