Abstrak

Latar Belakang: *Aggressive driving* adalah salah satu bentuk kenakalan remaja yang sering dilakukan saat ini yang berdampak kepada tingginya angka kecelakaan pada remaja. Data menunjukkan bahwa angka kejadian kecelakaan akibat *aggressive driving* dari tahun 2013-2015 adalah 120 korban. Salah satu bentuk pencegahan *aggressive driving* pada remaja adalah pola asuh *islamic parenting*. Hal ini kemudian menjadi penting untuk dilakukan penelitian dengan tujuan mengetahui hubungan *islamic parenting* dengan perilaku *aggressive driving*.

Tujuan Penelitian: Mengetahui hubungan *islamic parenting* dengan perilaku *aggressive driving* pada remaja SMP Negeri di Kota Yogyakarta.

Metode Penelitian: Penelitian ini merupakan penelitian kuantitatif dengan *correlational design* yang menunjukkan hubungan antara *islamic parenting* dengan *aggressive driving*. Rancangan penelitian ini dengan pendekatan *cross sectional* menggunakan uji statistik *Spearman*. Sampel dalam penelitian ini sebanyak 385 orang dengan menggunakan teknik pengambilan sampel *Cluster Sampling*. Data penelitian diambil menggunakan instrument berupa kuesioner.

Hasil Penelitian: Hasil uji statistik menunjukkan bahwa *islamic parenting* dengan kategori sedang sebanyak 57,9 %. Sedangkan *aggressive driving* dengan kategori kategori rendah sebanyak 63,3 %. Hasil analisis *spearman* menunjukkan bahwa nilai *significancy (p)* sebesar 0,053 ($p > 0,05$) yang berarti tidak terdapat hubungan antara *islamic parenting* dengan perilaku *aggressive driving*.

Kesimpulan: Tidak ada hubungan antara *islamic parenting* dengan perilaku *aggressive driving* pada remaja SMP Negeri di Kota Yogyakarta.

Kata Kunci: *Islamic Parenting*, *Aggressive Driving*, Remaja.

THE CORRELATION BETWEEN *ISLAMIC PARENTING* WITH *AGRESSIVE DRIVING BEHAVIOR* OF ADOLESCENT IN PUBLIC JUNIOR HIGH SCHOOL YOGYAKARTA CITY
