EXTENDED GRATITUDE

Alhamdulillah rabbal'amin. This undergraduate thesis finally has finished. There are many people who contribute to this thesis that helped support me that I can finish this undergraduate thesis almost in time. So, I would like to express my gratitude in this extended section to those persons.

First of all, I would like to say thank you to my family who are and always been my number one support. My mom who always be my alarm, reminds me to do thesis all the time; my dad who always support me and pray for me; my sister and brother, Kartika Asna Aziza and Ghifari Naufal Arib, although they both don't contribute directly to my thesis but I have to insert their name anyway since they are part of my family.

Second, I give my thanks to my favorite friends since High School. The ten of them: Arsy, Agesti, Nisa, Vina, Lita, Ika, Isna, Zahra, Tiara, and Silvi. Even though some of us are separated by distance, we are and always been supporting and reminding each other through Line group. The complete gang which have the colorful personalities.

Then, I also want to thank my college friends, especially my class of 2013 friends who support each other doing the undergraduate thesis. I will always remember our times at Study Hall finishing the undergraduate thesis. Study Hall also becomes the place I'm going to miss after college ends, because it is not only the room for doing the undergraduate thesis together. The Study Hall keeps everything that is untold, the room of memories. It keeps the secret of everybody who believe it is better left unsaid. The ones who left and the ones who stay

(hopefully you guys will finish it soon), I wish all of you tons of luck. Thanks for making my campus life way more colorful by having different characters of friends.

Next, I'm so thankful for my "KKN exclusive" friends, Rahma and Fatin (Pokpok). Thanks for supporting each other, not only for doing the undergraduate thesis, but everything (mostly) relate to who's going to be our future husband. LOL. Although we met in the end of the college life, I hope our friendship doesn't stop after our college life ends.

The last, I would like to give my gratitude to everyone who directly or indirectly contributed to my undergraduate thesis. The ones I forgot to mention above, a mention doesn't mean a thing. The most important thing is your existence and help will be counted by Allah SWT as a good deed that will help you in the afterlife.

ABSTRACT

In the early independence of Indonesia, Indonesia had maintained good relations with China and Taiwan. However, after China made the regulation of One China Policy which is applied by Indonesia, Indonesia can't have diplomatic relation with Taiwan. It is because every country which applied One China Policy should consider that Taiwan is a province in China and not a country. So, the relation between Indonesia and Taiwan is limited in the economy.

As the relation is limited by the economy, there is also no Taiwanese embassy in Indonesia and vice versa. The only representative in Indonesia of Taiwan is Taiwan Economic and Trade Office (TETO) that handles about the economic relation between both countries. There is also Indonesia Economic and Trade Office (IETO) in Taiwan. Both representative offices are not a governmental representative.

The economic relation between Indonesia and Taiwan is conducted by business to business or people to people. Indonesia-Taiwan economic relation is good although it is considered non-institutionalized economic relation. Then, Taiwan has proposed a more institutionalized economic relation by Economic Cooperation Arrangement (ECA). There were two joint studies that have been conducted by P2P LIPI and CIER about the feasibility of ECA in the relation between Indonesia and Taiwan. However, the ECA between Indonesia and Taiwan is not continued or has been postponed. It can be said that there is no continuation of Indonesia-Taiwan ECA.

This research is conducted in order to understand the reason of Indonesia to build the ECA with Taiwan, although the relation between Indonesia and Taiwan remains good without ECA. The scope of the research is limited in 2012-2015. The research is conducted by the qualitative method, which is collecting the data that is used to analyze and also would be the evidence of answering the research.
