

## **CHAPTER IV**

### **CONCLUSION**

#### **4.1 Conclusion**

Based on the results of the research and interviews of the speaker, then the final conclusions regarding the Implementation Program Of Gerdu Kempling To Resolve The Poverty In Local Government Semarang City 2015, went well even though there are still some obstacles in town community Semarang. From the implementation of the program is already fulfilling some of the indicators that have been presented in previous discussion. Based on the results of this research, then the researcher concluded that :

1. The Government's efforts is Gerdu Kempling Semarang city to alleviate poverty in the city of Semarang through empowerment programs 5 field goals, namely, health, economy, education, infrastructure, and environment and invites participation entrepreneurs, private, BUMN, NGOs, colleges for contributing actively in combating poverty through programs of Gerdu Kempling.
2. The obstacle Factors in implementation program Gerdu Kempling in Semarang City is in Community mindset of the culture by them self. Because, people just watch and tattle programs implemented to tackle poverty. Still a lot of some communities that have not been aware of the importance of the programs provided by the Government to the community in survival are good,

because some of the people just want to direct cash rewards without wanting to work hard to live in prosperity.

## **4.2 Recommendation**

Based on the conclusions of the study results above, then the researchers gave some advice that can serve as the input and consideration so that Program execution Gerdu Kempling in resolving poverty can run more optimal. As for the suggestions :

1. Expected the entire sub-district of Semarang which implements programs Gerdu Kempling can identify and unearth the potential local community so that the community can be encouraged to participate actively in the implementation Program of Gerdu Kempling given key from the bottom up is the success of the community itself. The various parties involved in the programs of Gerdu Kempling was expected to perform better coordination and communication with the braid routinely review with activities on the implementation program of Gerdu Kempling in Semarang city.
2. The intense dialogue is necessary to the community and program recipients as well, that the assistance provided is to the development of society that will change the pattern of a better life, and could have the insight or guidance in doing a job provided through training, material assistance, which will be grown to be able to develop a better social life in the future.
3. The programs which will be created next for tackling poverty, should be better in practice and all the poor people who are eligible can receive help from the program rolled out for welfare. And lowering the poverty population in

Semarang deeper, in order that the goal of the program is running with the right target.

4. We encourage socialization programs conducted with more intensive especially to citizens of the target program to enhance their understanding of the content and purpose of the program is run. In addition, dissemination to the stakeholders and Government agencies implementing the programme through coordination meetings also should be improved. Need to saw the synergy of Semarang city government aid givers with stakeholders/CSR and further developing cooperation networks with the various parties to jointly tackling poverty in the city of Semarang.
