

ABSTRACT

Food Crisis is one of the international issues because of the serious concern in the world, this is because the food crisis can affect the progress and development of a country. Yemen is one of the countries facing this serious problem. The World Food Program (WFP), which is the world's largest humanitarian agency, undertakes efforts through its main operations of Emergency Operation (EMOP) and Special Operations (SO) to address the food crisis that occurred in Yemen after the escalation of the March 2015 conflict. Through these two types of operations, WFP is launching programs to provide assistance to Yemeni communities as well as other humanitarian organizations working with WFP in helping to overcome the food crisis.
