

## ABSTRAK

Penelitian ini dilatar belakangi karena sedikit mahasiswa alumni pesantren yang mau berkontribusi di masyarakat dan masih banyak alumni pesantren yang malah tidak mau berkontribusi atau hanya sekedar berpartisipasi dalam acara kemasyarakatan. Bahkan tidak sedikit alumni pesantren yang tinggal di kos-kosan lebih memilih untuk bermain dengan teman-teman sebayanya dari pada berkontribusi pada kegiatan masyarakat. Penelitian ini bertujuan (1) untuk mengetahui bentuk kontribusi mahasiswa alumni pesantren kepada masyarakat dan (2) untuk mengetahui bagaimanakah kontribusi mahasiswa alumni pesantren kepada masyarakat

Peneliti menggunakan pendekatan kualitatif dengan corak deskriptif, dengan subjek alumni pesantren yang saat ini menjadi mahasiswa Program Studi Pendidikan Agama Islam, Fakultas Agama Islam, Universitas Muhammadiyah Yogyakarta. Data dikumpulkan dengan wawancara sebagai metode utama, observasi dan dokumentasi sebagai metode pendukung. Data yang sudah diperoleh dianalisis secara deskriptif.

Hasilnya menunjukkan bahwa: (1) bentuk kontribusi yang dilakukan oleh mahasiswa alumni pesantren, yakni: kontribusi bidang keagamaan, kontribusi bidang kesehatan, kontribusi bidang pendidikan karakter dan kontribusi bidang sosial; dan (2) kontribusi mahasiswa alumni pesantren bidang keagamaan dan sosial dilakukan dengan sangat baik, untuk kontribusi bidang kesehatan dan pendidikan karakter cukup baik, kecondongan kontribusi yang dilakukan oleh alumni pesantren adalah kontribusi di bidang keagamaan dan sosial. Kontribusi yang dilakukan mahasiswa alumni pesantren kepada masyarakat pedesaan dilakukan dengan menggunakan bantuan organisasi dan hanya 4 (40%) dari 10 orang yang juga melakukannya secara individu.

**Kata Kunci:** kontribusi, alumni pesantren, masyarakat.

## ABSTRACT

This research is motivated by the least number of students of Islamic Boarding School alumni who is willing to contribute to society and by the large number of students of Islamic Boarding School alumni who is not willing to contribute or to simply participate in social events. There is indeed not few living in boarding house who prefer hanging out with their peers to contribute in social events. This research is aimed at (1) identifying the contribution of students of Islamic Boarding School alumni toward society, and at (2) identifying how is the contribution of students of Islamic Boarding School alumni toward society.

The researcher used qualitative approach with descriptive pattern, with subjects of Islamic Boarding School alumni who are currently students of Islamic Education Study Program of Islamic Religion Faculty of Universitas Muhammadiyah Yogyakarta. Data were gathered through interview as the main method, observation, and documentation as supporting method. The compiled data were analyzed descriptively.

The result indicated that: (1) the contribution made by students of Islamic Boarding School alumni were in forms of: contribution in religious field, contribution in health field, contribution in character education and contribution in social field; and (2) the contribution of students of Islamic Boarding School in religious and social field were conducted excellently, contribution in health field and character education are relatively good, the tendency of the contribution made by students of Islamic Boarding School is in the field of religion and social. Contribution made by students of Islamic Boarding School toward villagers were supported by organization and there were only 4 (40%) out of 10 people who made individual contribution.

**Keyword:** contribution, Islamic Boarding School alumni, society.
