

ABSTRACT

This study was created with the aim of knowing about the strategy of Hamas in the face of Israeli violence. Where the conflict stems from the Arab-Israeli war conflict. Starting a Jewish belief in the land of the legacy of Prophet Moses made a prolonged conflict with the Palestinians. As I discussed in this study is that the power of Hamas is very far below Israel. However, there are several strategies that can make Hamas defend against Israel. The strategy that Hamas uses is nothing but the Palestinian struggle. Resistance and struggle become its own power in the face of Israel. Although peace is still difficult to obtain, Hamas presence in the eyes of the Palestinian people is a separate warrior because of the success of Hamas in achieving support from the Palestinian people.
