## EXTENDED GRATITUDE

Through this page I would like to extend my deepest gratitude for both spiritual and moral support during my college years. I would like to personally thank:

1. My very loving and supportive family whose support are immensely imperative toward the start, the process and the completion of pursuing my undergraduate degree. They have given spiritual, moral and material support unconditionally. I want to thank my father – Drs. H. Suriaman M.Si, for always sharing me life virtues, becoming a role model for his inspiring characters including his patience, calmness and how he is always grateful for everything in life. I want to thank to my beloved mother – Dr. Aminah, whom I cannot describe how her strength in raising our family has become one of the greatest power supply of mine in every obstacles I face in life. I know how much she loves me through her unconditional and never-ending supports. She strives to complete and fulfill everything I need showing how supportive she is for my educational progress. Both my dad and my mom remains my ultimate source of power and spirit in life. I can't describe how much love I have for them. Equally, to the greatest brother in the world, Muhammad Adnan who may not always be there physically but has supported me greatly in life. My twin sisters – Nabila Triana and Nadila Fortuna, who keeps inspiring me too through their cheeky characters how they are always helpful to me. I cherish the brother and sisterhood I have. We always inspire each other in our own ways. I could not have any better family in life.
2. I want to thank my big family in Enrekang, Pangkep, Makassar, Kalimantan, Papua, basically spread all over Indonesia. They have supported me in ways that they keep motivating me to be the great face of the family. I cherish our togetherness. I can't mention each one by one. However, I want to especially thank Tante Eni and Alm.

Tante Hutni as my closest aunts who are there whenever I come to Enrekang. They have inspired me personally to be a strong woman with unconditional love. I learn a lot from these two. I want to thank Om Nas too, he has always been one of the greatest uncle who spreads his love and virtue to all his nephews and nieces. He is like a second father for me.

3. I'd like to thank my classmates International Class A (IC A), becoming one of the most solid class throughout the college years and has become a great support. I really can't mention you guys one by one but I want to mention Gin Gin as one of the most memorable IC A member whom started everything and who strives to always keep the togetherness of the class.
4. I want to thank my best boy (space) friends who become my guardians and act out as brothers, partners, boyfriends, dads namely Zaki Syaiful Hunafa, Sandi Nursahamdani, Andi Rifky, Muhammad Ammar Hidayatulloh, Rafyoga Jehan Pratama Irsadanar, Emir Gemilang and Alim Bubu Swarga. They have become the most comforting people and these boys are never absent in taking care of me. I love my dates with them and they are forever becoming my non-blood related brothers. I feel like the luckiest girl to have known and be supported by these boys.
5. I want to thank my girls, Anak Gadis – Tri Azmi Khairunnisa and Ndaru Rizqa Amalia my ultimate living supporting machines. They are always always there. I don't have so many close girl friends, but that is unnecessary because both of you have given me love and support more than I ever deserve. Let's support each other till we grow old and grey!
6. I want to thank Yolo Yolo Squad – ibu Abel, Pekok Pio, Naher, Chal, Salma Menthel, Mami Mitha and Ikhyacu. This has become one of the most understanding and supportive junior squad I ever encountered with. I love them with any means. And their support means a lot to me. Although they support by asking me to hedon together, that's okay. I still love them.

7. No-judging-but-always-judging squad, my hoepartners – Dilla and Ai. Bitzez, my kontrakan squad, thank you so much for filling my days with heaven on Earth. I can be whoever I want to be when with you guys and you'd still love me the same. Thank you for taking care of me and taking care of my shitty behaviors (at times, LOL). When we g down, we go down together!
8. Mefhan Widianata. Such a loving and caring person. He is very hardworking and driven. I am inspired by him and his kind soul. He's taught me so much on life and its struggles. He has also helped immensely during most of the process of my thesis writing. He acted out as a supporting system, mood booster, and stress reliever. All I have is love to you.
9. Al-azhar Squad in Jogjakarta! Thank you for being a second home. We don't meet very often but the support is real from each one of you. Thank you Galang Galih Gibran – my best friend since junior high who is now in Netherlands, thank you for always inspiring me to do things above average and to take efforts extra miles. Thanks to Naufal Muflih as well, who is a very sincere friend and always try to be helpful.
10. Johannes Envall. You weed-addicted alcoholic rich fluffy Arab toddler! Just kidding! Thank you so much for your endless and effortless overloaded cuteness. You have the kindest soul. Most calming spirit. Very playful. Thank you for becoming one of my ultimate supporting system. You might be confused how, but from your visit in January until the very day of my thesis is completed, you've always been there to listen, to entertain, and just be there. I am so thankful that the universe allows you from that far away land of Sweden to meet me here in the southern part of the world, Indonesia. I just wish, that the stars are at our odds so that we can always meet in the future and not separated by continents and oceans. In Fatland, or Bonyland, I don't mind, dude.
11. Those who came all the way to both my undergraduate thesis proposal and thesis defense examinations. I might

not be able to mention every name (LOL, it would take one whole page), but in my memory I still keep you all. You have the kindest heart giving support in so many ways. I thank you all respectively.
