Acknowledgement

First and foremost, all praise to Allah Subhanahu WaTa'ala who gives health and capability to finish this undergraduate thesis. Second, I would like to express gratitude to my family who never gets bored supporting all things I do. This undergraduate thesis has been waited by them for such a long time. the most importantly this research could not have happened without my family. To my parents Mr. Furqon and Mrs. Kholifah I'd like to express my deepest gratitude to both of them as everything they have given to me. I hope they both always get healthy as they promise to see my success in the future, and I do always need their support and prayer to reach the success. They offered encouragement to me through phone call or messenger. They received my deepest gratitude and love for their dedication and support provided the foundation of this work during my undergraduate thesis that. Their dedication to keep us (their children) pursuing degree as high as possible. I learn a lot how they raised us with passion and love. Being bad, naughty, and lazy are just basic characters of a kid, and they two never get tired to fix me to be good. To my Kakek Mr. Harun (Grandpa), I wish Allah put him at the best place there.

Besides, I must thank my big family Bani Abdul Qodir for their prayer, support, and guidance has become my motivation to pursue all my dreams. And also I must thanks to my little brother M. Irsyad Rafli and Muhammad Dzikri were also the reason what made this research possible. This undergraduate thesis is dedicated to their unconditional love and encouragement. Maybe thousands of thanks are just not enough to express my gratitude to my family. You all are priceless in my life, and without you all I'll never run up to this point.
