DEDICATION PAGES

This undergraduate thesis dedicated to:

My parents,

My everything and my real first love

Thanks to my mother, Kikin Kurniasih who gave birth to me,

Thanks to my father, Jajang Suhendar for taking care of me all the time,

Without both of you, I can't be this strong through my entire life.

I really love both of you.

All my family,

Thanks for being helpful and giving me the best spirit during my lifetime.

THANKS TO

The author would like to say thanks as much as possible to all parties who have given spirit, help and become a source of motivation for the author.

1. Thanks to my second family, Manis Manja (Wafa, Della, Nadifa, Nurfujiati, Silvy, Tiara and Shela) for being always my number one supporting system during my study in Yogyakarta. Thanks for always remembering and take care of me as you all can. No goddamn reason for me not to love all of you!
2. Thanks to my Charlie's Angels, Adinda and Niken. I know I messed up almost all of the time but trust me, I really love both of you. Thanks for always being my real angel for me, even tough we've always fight each other. Thanks to fill out my life during my study in Yogyakarta. Love u guys to the moon and back!
3. Thanks to my OXIDE Family, especially OXIDE Medok (Emak, Budew, Kakudip, Delala, Ateu, Tiaya, Matwins, Yudha, Opay, Ngenges, Yafi, Krisna, Dika, Ftul, Irsyad, Mioh, Altof, Enyok, Baban) for being with me almost the last 10 years. You guys no longer friends for me, but already being part of my family.
4. Thanks to my AWW Squad (Kak Uhil, Kak Ndif, Beb Nci, Mpeuh, Ayang Ecu, Delala) for still keep in touch with me even though we far away from each other. You guys are my human diary since SHS till now and forever.
5. Thanks to IGOV'14 and IGSC for sharing knowledge and experience during my study in UMY. Special thanks to Elfira as my number one FBI and *ghibah* partner, Dayat, Amin, Tiwipap, Tiwi97, Wildhan, Tante Ocin, Ghandur, Cibe, Ed, Taro, Nuri, Wawan, Zavied, Selvy, Jaya, Perhat and Openg. You guys have been helping me in many ways including TA (lol) and giving me the update *ghibah* around us. Luvluv!

6. Thanks to my Sunda Squad (The Indri, The Mila, Yuni, The Mela, Maisan, Fauzia and Naufalita) for always listening and understanding me (like prudential, lol). No matter how hard the situation, you guys never get mad at me. You guys always giving me ‘magical phrases’ that makes me laughing so hard and it makes me forgetting my problem. Love!
7. Thanks to Maudy and Neng Ayu for welcoming me in your life. I can even remember how we meet for the first time, lol. But you guys should know that I’m so glad to know both of you. Yaya *sayang* Maudy & Neng Gumpi!
8. Thanks to my Beloved Junior (Ipoi, Humai, Ranirenj, Dekmel, Rani) for always listening my complicated story and for giving me an advice even though you guys are younger than me. Best wishes for you guys my little sister.
9. Thanks to my Stupid Botol Club (Putri, Airin and Adin) for teaching and giving me the experience that I wanted to do in my entire life, lol. You guys are dabest!
10. Thanks to my Shopkeeper Club (Asna, Dita si Ayam Geprek, Mbak Nad, Mbak Diana) for always being nice to me as I a newest member in *distro*. Thanks for always accompany me looking for something to eat and meet me with the older shopkeeper which is now my friend as well.
11. Thanks to the girls from Wisma Putri Srimanta Tandurasta (Khanun, Wening, Firda, Nopay, Intan, Novita, Betha) for bothering you all to open the gate when I don’t bring the key, for giving me a drinking water when no one left in my room, for taking my package and thanks a lot for any other help. Me love u all.
12. Thanks to KKN 123 (Ud, Mami, Riska, Bima, Giga, Dian, Mas Agus, Mukhsin, Tommy) for becoming my life companion for a month in Tangkil. Thanks a lot!
13. Thanks to Alrdi Samsa for being my partner in the last 2 years. Thanks for always makes me laughing with your *receh* jokes and your weird act, lol.

Thanks for always giving me an advice, taking care of me (sometimes, lol), teaching me how to survive without lowered my self-esteem and introducing me to any of your friends, bcz of u I have many new friends in campus. Thanks!

14. Thanks to my college friends (Dina, Mitha, Tanjung, Arnida, Maya, Dewi, Eni, Puje, Niki, Arin, Wika, Dara, Alifa, Novi, Agung, Jejen, Ibong, Ijey, Afriza, Isal, Nafis, Bang Roni) for sharing and helping me during my study in UMY.
15. Thanks to all my friends and all my junior in Mataf Fisipol'16 Committee, ILMISPI Committee and Milad Fisipol 36 Committee
16. Thanks to all my beloved friends who can't be pronounced one by one because there are too many people I love. Thanks for those who have been praying and supporting me, may we always be eased in all things and blessed by Allah SWT. *Amin Yaa Robbal Alamin.*

ABSTRACT

The research aims to analyse the impact of iron sand mining activity in Cikalong Sub-district, Tasikmalaya Regency, West Java and to describe how the society and the government overcome those impacts. There's several impacts of iron sand mining activity, both of negative impact and positive impact. First, social impact that will affect the social life of the societies around the iron sand mining area. Such as how the societies life before and after the existence of iron sand mining, whether change or not. Second, economic impact which is will improving the economy of the societies, especially those who working as a miner. Another economic impact is decreasing of the number of unemployment of the societies. Third, environmental impact that will caused some damage to the environment around iron sand mining. There are several categories of environmental impacts, such as impacts on the mainland, impact on the water and impact on the air. Iron sand mining must be balanced with the good maintenance of an environment from the surrounding community or from the government itself. if the natural environment is damaged there will be an imbalance that threatens human life, such as natural disaster. Moreover, in the natural environment there are many non-renewable natural resources, if its didn't maintained well, the sustainability of future generations will suffer the extinction.
