

ABSTRAK

Penelitian ini bertujuan untuk untuk: 1) mengetahui tingkat religiusitas siswi SMA Muhammadiyah Gubug, 2) seberapa tinggi tingkat motivasi siswi SMA Muhammadiyah Gubug dalam berjilbab, 3) untuk membuktikan pengaruh religiusitas terhadap motivasi berjilbab siswi SMA Muhammadiyah Gubug.

Penelitian ini menggunakan metode kuantitatif dengan pendekatan deskriptif kuantitatif. Teknik *sampling* yang digunakan adalah teknik *simple random sampling*. Pengumpulan data pada penelitian ini menggunakan angket model *skala likert* dan dokumentasi. Analisis data dan pengujian hipotesis menggunakan statistik deskriptif dan analisis regresi linier sederhana.

Penelitian ini memperoleh hasil untuk menjawab rumusan masalah yaitu: 1) tingkat religiusitas siswi tergolong sangat tinggi dengan prosentase 88%, 2) tingkat motivasi berjilbab siswi sebesar 51% siswi yakni sangat tinggi, 3) terdapat pengaruh yang signifikansinya sebesar 0,000. Hal tersebut dapat dikatakan signifikan apabila nilai $t > 0,05$, yakni ada pengaruh yang signifikan antara religiusitas siswi terhadap motivasi berjilbab siswi SMA Muhammadiyah Gubug Kabupaten Grobogan. Dengan kata lain semakin tinggi religiusitas siswa semakin tinggi pula motivasi berjilbabnya.

Kata kunci: religiusitas, motivasi, jilbab.

ABSTRACT

EFFECT OF RELIGIOSITY LEVEL TO MOTIVATION OF WEARING VEIL OF FEMALE STUDENTS IN SMA MUHAMMADIYAH GUBUG (Students Class XI Academic Year 2017/2018)

This study aims to: 1) know the level of religiosity of female students in SMA Muhammadiyah Gubug; 2) know how high the motivation level of female students in SMA Muhammadiyah Gubug particularly in wearing veil; and 3) prove the influence of religiosity to the motivation of wearing veil of students in SMA Muhammadiyah Gubug.

This research used the quantitative method with the quantitative descriptive approach. The sampling technique used simple random sampling technique. The data collection in this study using questionnaire Likert scale model and documentation. The data analysis and hypothesis testing used descriptive statistic and simple linear regression analysis.

This research got the result to answer the problem formulation that is: 1) female student's religiosity level is very high with percentage 88%; 2) motivation level of students wearing veil is 51% female students which means very high; and 3) there is a significant influence of 0.000. It can be said significant if the value $t > 0.05$, there is a significant influence on the religiosity of female students to the students' motivation in wearing veil in SMA Muhammadiyah Gubug Grobogan district. In other words, the higher the religiosity of students the higher the motivation of wearing veil.

Keywords: *religiosity, motivation, veil.*
