

## **ABSTRAK**

Kim Jong Un, during his leadership, has conducted nuclear tests 3 times, in 2013, September 2016 and September 2017 and ballistic missile launch test that endanger regional countries. As a result of those test North Korea has received several sanctions from the United Nations, but Kim Jong un condemned the sanctions and continued to develop nuclear weapons. As a sovereign country leader, of course Kim Jong Un has good reason and consideration to defend his country from all forms of hegemony and attacks from outside his country. Therefore, Kim Jong Un remains firm in saying that North Korea will continue to develop the country's defense weapons to defend its country even though it has received much criticism and even international sanctions. Of course there is a reason and purpose for Kim Jong Un's policy to keep doing that
