INTISARI

Penelitian ini bertujuan untuk mendeskripsikan profil petani padi, persepsi dan permasalahan petani padi pemilik Kartu Tani di Desa Kesesi. Metode yang digunakan dalam penelitian ini adalah analisis deskriptif. Data yang digunakan adalah data primer yang diperoleh dari wawancara berdasarkan kuesioner. Hasil Penelitian menunjukkan, petani padi pemilik kartu tani di Desa Kesesi berusia tua sekitar 42-48 tahun, pendidikan terakhir yang rendah yaitu SD, pekerjaan lain sebagai ibu rumah tangga, pengalaman bertani yang lama yaitu 28-37 tahun, memiliki luas lahan milik sendiri yang sempit sebesar 1.500-6.124 m². Persepsi petani padi pemilik kartu tani di Desa Kesesi terhadap pemanfaatan kartu tani termasuk dalam kategori cukup baik. Permasalahan petani padi pemilik kartu tani dalam memanfaatkan kartu tani yang paling dominan terletak pada aspek teknis yaitu kendala prosedur pemanfaatan kartu tani dan kendala akses pemanfaatan kartu tani.

Kata kunci: Kartu tani, persepsi, petani padi
