

## **CHAPTER FIVE**

### **CLOSING**

#### **A. Conclusion**

Based on the discussion in the previous chapter, the implementation of the Right of Investigation to the Bank of Indonesia and the Corruption Eradication Commission has reached the end of process of the investigation that is recommendation. However there is no further action taken by the Government, the Bank of Indonesia, and the Corruption Eradication Commission.

#### **B. Recommendation**

The problem of using the Right of Investigation of the House of Representatives to the state institutions is because to some extent it can be more political. Therefore the House of Representatives has to use the Right of Investigation wisely. It means that the House of Representatives has to look more at the reason why the investigation was issued. The use of the Right of Investigation is part of the check and balances mechanism, not merely on the basis of political interest.
