

ABSTRACT

This research discusses about The Obstacle of World Food Programme (WFP) in Resolving Food Crisis of South Sudan. The purpose of this research is to analyze and find out the factors of the obstacle of WFP to resolve food crisis in South Sudan. Based on the research that has been hold, the researcher found there are three factors that become obstacles to WFP, namely the political conflict in the government of South Sudan, the difficulty of access to some areas of South Sudan and the instability of funding.

Keywords: WFP, South Sudan, Food Crisis, International Organization
