Since the AfD Party has demanded various issues, such as Anti-Islamic Issues, Anti-Immigrant Issues, and Anti-EU Issues, it seems that it has had an impact on the policies of the then Chancellor named Angela Merkel. In expediting these demands, the AfD Party was not alone, the Pegida Organization also demanded the arrival of immigrants which would have a negative impact on the environment in Germany. The AfD Party wants the Government in Germany to also consider the condition of Germany when it comes to making a Policy. Various demands have been expressed by the AfD Party, in their demands also received support from the community. In 2017, as a venue for proof that what the AfD Party had conveyed was fact, so in the end the AfD Party could enter in the top three of the 2017 German Elections. In the victory there were strategies that were very well targeted, which ultimately paid off.
