

## **ABSTRACT**

The 3R (Reduce, Reuse and Recycle) Program provides basic information and knowledge about waste and its provided by expert in each region. The low level of public services for solid waste or garbage has resulted in the level of water, soil and air pollution through environmental quality standard in Indonesia. So that, United Nations Centre for Regional Development (UNCRD) helps developing countries promote beneficial aspect of 3R in Indonesia.

*Keyword : Reduce, Reuse and Recycle (3Rs)  
Policy, Waste Management, Indonesia*

## **ABSTRAK**

Program Reduce, Reuse and Recycle (3Rs) menyediakan informasi dasar dan pengetahuan limbah yang disediakan oleh pakar di setiap wilayah. Rendahnya tingkat pelayanan public untuk limbah padat atau sampah yang telah mengakibatkan tingkat pencemaran air, tanah dan udara melalui standar kualitas lingkungan di Indonesia. Sehingga United Nations Centre for Regional Development (UNCRD) membantu negara-negara berkembang dalam mempromosikan aspek dan manfaat dari program 3Rs di Indonesia.

Kata kunci : *Reduce, Reuse and Recycle (3Rs) Policy, Pengelolaan Limbah, Indonesia*
