

ABSTRAK

Penelitian ini bertujuan untuk mendeskripsikan hasil perbedaan tingkat *adversity quotient* mahasiswa PAI program reguler dengan mahasiswa (PUTM) Pendidikan Ulama Tarjih Muhammadiyah di Universitas Muhammadiyah Yogyakarta. Penelitian ini bertujuan untuk mengetahui tingkat *adversity quotient* mahasiswa PAI Program reguler Universitas Muhammadiyah Yogyakarta; untuk mengetahui tingkat *adversity quotient* mahasiswa PUTM di Universitas Muhammadiyah Yogyakarta; serta untuk mengetahui adakah perbedaan tingkat *adversity quotient* mahasiswa PAI Program reguler UMY dengan mahasiswa PUTM di Universitas Muhammadiyah Yogyakarta.

Jenis penelitian ini adalah penelitian survei menggunakan pendekatan kuantitatif dengan metode komparasi. Metode pengambilan data penelitian, peneliti melakukan penyebaran kuesioner yang berkaitan dengan *adversity quotient* mahasiswa PAI program reguler dan PUTM. Di dalam analisis peneliti menggunakan uji t-test yaitu *Independent Sample t-Test*, dengan menggunakan program *SPSS Statistics 25*, untuk melihat hasil perbedaan *adversity quotient* mahasiswa PAI program reguler dengan mahasiswa PUTM di Universitas Muhammadiyah Yogyakarta.

Hasil penelitian adalah (1) Tingkat *adversity quotient* mahasiswa PAI program reguler UMY dalam kategori sedang, (2) Tingkat *adversity quotient* mahasiswa PUTM UMY dalam kategori sedang (3), H_a ditolak dan H_o diterima, Tidak Terdapat perbedaan tingkat *adversity quotient* mahasiswa PAI program reguler dengan mahasiswa PUTM di Universitas Muhammadiyah Yogyakarta. Hal ini dibuktikan dengan hasil Uji *Independent sample T Test* dengan nilai Sig. $0,953 > 0,05$. Jika dilihat secara teoritik terdapat perbedaan antara mahasiswa PAI dan PUTM namun tidak signifikan dengan penjelasan lebih tinggi AQ mahasiswa PUTM dibandingkan mahasiswa PAI

Key-word: Adversity quotient, Pendidikan Agama Islam (PAI), Pendidikan Ulama Tarjih Muhammadiyah (PUTM).

THE ADVERSITY QUOTIENT ON STUDENTS: A COMPARATIVE STUDY
ON PAI STUDENTS OF REGULAR STUDY PROGRAM WITH PUTM AT
UMY

ABSTRACT

This research is to describe the result of the difference of adversity quotient level of PAI (Islamic Education) students of regular study program and PUTM (Pendidikan Ulama Tarjih Muhammadiyah - Education of *Ulama Tarjih Muhammadiyah*) students at Universitas Muhammadiyah Yogyakarta. This research is to observe the adversity quotient level of PAI students of regular study program of Universitas Muhammadiyah Yogyakarta; to observe the level of adversity quotient of PUTM students at Universitas Muhammadiyah Yogyakarta; and to observe whether there is difference between the adversity quotient level of PAI students of regular study program at UMY and that of PUTM students in Universitas Muhammadiyah Yogyakarta.

The type of this research is survey using quantitative approach with comparative method. The method of data gathering was questionnaire related to the adversity quotient of PAI students of regular study program and the adversity quotient of PUTM student. In analyzing this research, the researcher used t-test examination namely Independent Sample t-Test, using SPSS Statistic 25 program in order to see the difference between the result of adversity quotient of PAI students of regular program and that of PUTM at Universitas Muhammadiyah Yogyakarta.

The result of the research is (1) The adversity quotient of PAI students of regular study program at UMY is in the medium category, (2) The adversity quotient of PUTM UMY students is in the medium category, (3) H_a is rejected and H_o is accepted. There is no difference between the adversity quotient level of PAI students of regular study program and that of PUTM students at Universitas Muhammadiyah Yogyakarta. It is proven with the result of Independent sample T-Test with the value of Sig. 0.953 > 0.05. If it is observed theoretically, there is a difference between PAI and PUTM students but it is not significant with the explanation that the AQ of PUTM students is higher than that of PAI students.

Keyword: Adversity quotient, Islamic Education (PAI), Education of *Ulama Tarjih Muhammadiyah* (PUTM)
