Problem

Improvement on reading interest is needed in Indonesia, a country with a dissatisfying predicate on literacy awareness. That is proven by two reputable survey organizations. First, Most Littered Nation in the World (Central Connecticut State University, 2016) presents that Indonesia ranks the last out of sixty countries. Second, a survey done 2015 by Program for International Student Assessment presents Indonesians' reading habit is on sixty-ninth out of seventy-six countries (Ribka, 2016). In regard with the unpleasant fact about Indonesians' reading habit, Indonesians need to change by being
