

## INTISARI

Penelitian ini bertujuan untuk menguji pengaruh kesempatan investasi, konsentrasi kepemilikan, proporsi dewan komisaris independen, dan *leverage* terhadap *good corporate governance*. Sampel dalam penelitian ini adalah 30 perusahaan yang masuk dalam peringkat di *Corporate Governance Perception Index* (CGPI) selama 3 tahun berturut-turut yaitu dari tahun 2007-2009 sebagai sampel penelitian berdasarkan metode *purposive sampling*.

Data yang digunakan dalam penelitian ini adalah data sekunder berupa laporan keuangan perusahaan yang telah *go public*, dan referensi lain yang mendukung penelitian ini. Teknis analisa data menggunakan uji asumsi klasik: uji normalitas, uji multikolinieritas, uji autokorelasi, dan uji heteroskedastisitas. Uji hipotesis dalam penelitian ini menggunakan analisis regresi berganda.

Hasil penelitian ini menunjukkan bahwa: kesempatan investasi berpengaruh negatif terhadap *good corporate governance*, konsentrasi kepemilikan berpengaruh positif terhadap *good corporate governance*, proporsi dewan komisaris independen berpengaruh negatif terhadap *good corporate governance*, dan *Leverage* pada perusahaan tidak mendukung terhadap kualitas *good corporate governance*.

**Kata Kunci:** kesempatan investasi, konsentrasi kepemilikan, proporsi dewan komisaris independen, *leverage*, *good corporate governance*.

## **ABSTRACT**

*This research aims to test the influence of investment opportunities, the concentration of ownership, the proportion of the board of commissioners independent, and leverage against good corporate governance. A sample in research this is 30 company that enter in rank in corporate governance perception index (CGPI) for 3 consecutive years from 2007-2009 as sample research based on a method of sampling purposive.*
