

ABSTRACT

This study aims to analyze the effect of Total Population, Government Spending and Gross Regional Domestic Product (GRDP) towards Local Revenue in 12 Districts/Cities in Riau Province in 2010-2014.

This Study uses a quantitative approach. The research data were secondary data from 12 Districts/Cities in Riau Province in 2010-2014. The analysis model was data panel analysis with Fixed Effect Model.

The results showed that Total Population has no effect to Local Revenue. While, Government Spending and Gross Regional Domestic Product (GRDP) have positive significant effect to Local Revenue.

Keywords: *Local Revenue, Total Population, Government Spending, Gross Regional Domestic Product (GRDP).*
