

## CHAPTER V

### CLOSING REMARKS

#### 1. Conclusion

##### a. The Permit Procedure of Nursing Clinic

According to Article 22 Sub-article (2) Byelaw No. 4 of 2010, the requirement of permit procedure Nursing Practice Permit Letter, as follows:

1. Copy of applicant ID card;
2. Copy of Certificate of Bachelor Degree at least D III;
3. Copy of Nursing License;
4. Copy of General Emergency of Life Support (*Pelatihan Penanggulangan Gawat Darurat - PPGD*);
5. Letter of recommendation from organization of profession. The requirement of recommendation letter from organization of profession, nurse should be attached:
  - Copy of nursing organization's member card;
  - Copy of General Emergency of Life Support;
  - Experience Working Letter;
  - Address and sketch of the clinic location;
  - Copy of place of practice ownership, as shown by the certificate of land ownership (for own property);
  - The list of medical equipment; and
  - Passport-type photograph (4x6).
6. Certificate of health from medical doctor;

7. Letter of recommendation from head of public health service. The letter should explain the working experience of nurse in the public health service for minimum 3 years; and
8. Passport-type photograph (4x6), 2 exemplars and 3x4, 1 exemplar.

After completing the requirement, the nurse may continue the process of proposing the letter of nursing clinic permit. There are some steps for proposing the letter of nursing clinic permit, *i.e.*:

1. Nurse (the applicant) fulfill the application form of letter of nursing clinic permit;
2. Nurse should attach the requirement as mentioned on the list of requirement;
3. After nurse complete the document, nurse return the document to the Permit Bureau Officer;
4. In this level, The Officer will only check the completeness of check list that have to be fulfilled by the applicant. The process would be in two working days;
5. The document will be examined by Health Bureau of Bantul. In this process, Health Bureau of Bantul will check the validity of the letter;
6. The checking process of the administration document which would take around 7 work days;
7. Health Bureau of Bantul will return back the letter to Permit Bureau with or without recommendation for permit;

8. After the process has been completed, permit letter of nursing clinic is ready to be issue by Permit Bureau.

#### **b. The Supervision of Nursing Clinic in Bantul**

The nursing clinic is supervised by Health Bureau through Supervision and Control Program (*Program Pengawasan dan Pengendalian [Wasdal]*). In this program, Health Bureau of Bantul invites the owner of clinic to be given a briefing about nursing clinic in Bantul.

#### **2. Suggestion**

Nursing clinic has been regulated in some regulations. It aims to protect either nurse or patient. However, only 6 from 679 the number of nurse open the clinic. There are some reasons why the nurse does not want to open the clinic, as follows:

1. The nurse feels difficult in fulfilling the requirement and process on proposing the letter of nursing clinic permit;
2. Mostly the nurse does not want to open the clinic, since he/she will responsible to the patient if there is a medical malpractice.

Based on those reasons, the government should socialize the regulation and requirement of permit procedure of nursing clinic. Socialize aims to give the information about permit procedure of nursing clinic.

The supervision for nursing clinic had been conducted by Helath Bureau of Bantul. However, it is not enough. Health Bureau should supervise the nursing clinic not only briefing but also through the inspection of the nursing clinic. The inspection will shown the real condition of nursing clinic.
