

## ABSTRACT

*As one of the largest regionalism in the world, the Eroupean Union has a duty to provide help member countries that are affected by the problem in a variety of sectors, including in the economic sector. Yunani is the one of the countries in the EU are affected by the global economic crisis in 2008. As a regionalism thaht overshadow yunani, the European Union has a duty to help yunani out of the economic crisis. The mechanism that is run by the European Union is to establish EFSM, a mechanism to overcome the problem yunani crisis. The mechanism will be established an agreement between the yunani with the European Commision by yunani and European Central Bank to create targets to be achived by yunani for getting financial from the European Commision with Economic Adjustment Programme.*
