

Chapter Five

Conclusion and Suggestion

This is the last chapter of the thesis. This chapter will talk about the conclusion and the suggestion. In the conclusion the researcher will explain the result of this research. Then, the researcher will give her suggestion based on reflection of her research.

Conclusion

Vocabulary is important to be learned because vocabulary is the fundamental factor in learning English. It is a fundamental factor to understand language and produce language. Students who learn English and only use text book have limit vocabulary that they remember. They need media that help them to remember the vocabulary easily and pleasantly, so they will be able active participate in the learning activities. It is used to transfer the information about the subject material to the target learner. The researcher applied pop-up book in the learning activities at the fifth grade students of SD N 2 Trikarso, Kebumen. After applying the media, the researcher concludes the result as follow:

1. The students' vocabulary mastery before the treatment was in the low level. There were 21 students and only three students who were in the good level and two students were in adequate level and the rest were in the low level. It could be conclude that many students needed an improvement
2. Pop-up book that was used in this research gave significant effect to the students' vocabulary mastery. It could be seen from the students' post-test

scores and students' pre-test scores. The students' post-test scores were higher than the pre-test scores.

The result of this research shows that the level of students' vocabulary mastery before the use of pop-up book in the learning activities was in low level. Then, this research proves that the use of pop-up book in the learning activities was effective to be used as media to learn English vocabulary.

Suggestions

Through this research, the researcher gains valuable experiences in teaching and learning for students in elementary school. Based on those experiences the researcher will give some suggestions for teachers, students, school and for the other researchers.

For Teachers. The teachers are suggested to use appropriate media to teach English vocabulary. Then, the use of media is needed to help students understand English vocabulary easier. The use of media like pop-up gives more figuration about the object by seeing the picture. Pop-up book also has interesting page and colorful, so it would help them to remember it. The teacher also should be able to motivate the students to learn to make them active in the teaching activities and learning activities.

For Students. Students should learn and learn again not only in the school but also in their home. It is needed to reinforce their understanding. Students also can use media that help may help them understand the material. One of media that can be used is pop-up book. It has interesting movable pages and picture that help the students illustrate the real object.

School. Schools are suggested to supply media for the students. It is useful to help students understand the material easily. The example is pop-up book to learn vocabulary and there are many other media for the other subjects.

The other researcher. For future researchers are suggested to make new innovation pop-up that more interesting and useful if pop-up book will be applied in their research. Pop-up book is suitable to make the learning activities more varied.
