

ABSTRACT

Today's, China companies begin to show their performance to be top company in global market. As reported at The Economist magazine, told about Huawei took Ericsson position as the bigger telecommunication company in the world. The existence of Huawei in US showed that China companies are able to enter in US market specially, in telecommunication sector. In US, Huawei has cooperation with US companies and make some merger dan acquisitions. When 2001, Huawei operated their business in US and follow US free market system. So that many of private companies dan government use telecommunication product made by Huawei.
